## ABOUT THE STATE

The service on the Mount Mansfield electric railway is gripped by the shortage of water.

It is said that the town of Bethel has not furnished a case of even suspected suicide in the past nineteen years.

During the last six months there were registered in the Waterbury town clerk's office 21 births, 12 marriages, and 6 deaths, 33 of the deaths being at the hospital.

Fred H. Remington of Rutland, has secured the contract to make an addition to the training department of the Castleton State Normal school. The addition and new plumbing will cost \$4,000.

Wallace N. Hatchelder of Bethel, and Charles Hatchelder of Woodstock, who are to be associated in the defense of four Bethel men lately indicted for murder in the second degree, have been in the scene of the alleged murder preparing maps and gathering evidence for use in the trial.

It is understood that the new historical story of Miss Theodora Peck of Burlington, entitled "The Sword of Dundee," will be published in Great Britain and in this country August 22, 1908, by Duffield & Co., New York City. This firm published Miss Peck's story, "Heater of the Grants," which had and continues to have such a successful sale.

## A Victory For Yachtsmen.

The injunction served on the Van Dyke Lumber Co. by 23 owners of motor boats here and across the river in North Walpole, restraining the company from obstructing the Connecticut river at this point, is a victory for the boat owners. The representatives of the company have been in town in conference with those securing the injunction.

July 6 a boom was stretched across the river closing the stream for boating, although the log drive of the company was not likely to reach here for two weeks later. C. J. O'Neill started a movement for an injunction and secured nearly 25 names to a petition. He then went before Judge Stone of the superior court in Keene and secured the injunction. At the conference an agreement was reached which will establish a precedent for control of the river.

The company will lay a jam boom a couple of miles up the river to prevent the drive from jamming upon the shore, but there will be a gap of 20 feet wide enough for the boats to pass through. A second boom will be strung near South Charlestown, six miles further up stream, and the drive will be confined there until sufficient logs have gathered when the drive will be rushed through as quickly as possible. In this way the river will be opened for motor boat enthusiasts except during the time absolutely necessary to send the drive along the quickest route possible.

## WORKING MAN FEELS

100 POOR EVERY DAY.  
Collects Provisions For His Proteges and Uses Own Earnings to Help Out.

New York, July 17.—One hundred men a day are being fed free of cost by John Morgan, himself a poor working man, at 102 Christopher street, and so quietly that not even residents of the neighborhood have known what was going on.

Every evening scores of hungry men out of employment appear in groups of eight or 10, and for a full hour they come and go, crowding the small room to its full capacity. Every man helps himself to soup and bread and coffee without stint, and he is at liberty to obtain his breakfast and dinner there for a reasonable time until he shall have a chance to get work.

Mr. Morgan has been carrying on the work on a small scale for the last two or three years, but the demands on him have increased so that his accommodations are now taxed to their full capacity. He has no money, and has found co-operation in his work from his daughter, Calvina, who helps him to pay the rent, while he collects food for his proteges as best he can. The expense of renting suitable accommodations is divided between them, and for their provisions they largely depend on the bounty of bakers, butchers and grocers, among whom Mr. Morgan makes his rounds every morning.

## Quarrymen's Superstitions.

For many years past a curious superstition has prevailed in Carnarvonshire slate quarries with regard to Ascension day. Fatal accidents frequently happened in the quarries on that day, and the men would not venture into the workings, and for many years the day, known locally as "Holy Thursday," was observed as a holiday. While the superstition has lost some of its hold on the bulk of the quarrymen, some hundreds of them would not go near the quarries on last Ascension day. From "Stone."

It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied. 25c at the Red Cross Pharmacy, Rickett & Wells' drug store."

## HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which, despite the most beneficent environment of soil and sunshine and of atmosphere, seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out. Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

**Two sizes—50 cents and \$1.00.**
